

Ombudsman Reporting: Helping you help others...

Ombudsman Reporting is a web-based reporting program that gathers field reports from your network of ombudsmen. What does this mean? How can it help you?

- Ombudsmen can send off reports from anywhere. All that is needed is a computer and an internet connection.
- Report collection is **automated**. There is no need to re-enter data.
- Powerful tools are available for reviewing and updating records.
- Extensive journaling and action item management tools are built in.
- **Security** is ensured through the use of encryption.
- Ombudsman Reporting can be customized to your specific needs.
- Ombudsman Reporting supports the National Ombudsman Reporting System (NORS).
